

To add Social Library to your page

1. Log in to Facebook as an administrator for the page to which you want to add Social Library.
2. Enter http://www.facebook.com/add.php?api_key=206603099350429&pages=1 into the address bar of your Internet browser. The Add Page Tab page opens.
3. From the drop-down menu, select the page to which you want to add the app.
4. Choose the Add Page Tab button. Your Facebook timeline opens.
5. Open or refresh your library's Facebook page.
6. Library Search option has been added to the More drop-down tab.
7. Chose More and select Manage Tabs.
8. Drag Library Search to the desired position in the Manage Tabs window and choose Save. The Library Search option appears in the tab line.

To configure the Social Library

1. Navigate to your library's Facebook page. You will see the Library Search icon in your page's apps section. Important: If you don't see the Library Search app, add Social Library to your library's page (see Adding Social Library to your page on page 6).
2. Choose the Library Search app. The Library Search Settings page opens.
3. Enter the sitename and password you created during your Symphony, Horizon, or Discovery Web Services setup into the sitename (**OLS-North**) and password (**Jambi**) fields.
4. Click Login. The Libraries Page opens. This page allows you to select the libraries you want to make searchable through Social Library.
5. Choose the libraries you want to make searchable by clicking the check boxes next to their names.
6. Click Save to save your selections.
