

## CREPUQ libraries that are now using VDX (Colombo system)

Implementation of the Colombo system in the Québec university library network is in progress. Locations that do not appear in the list below have not yet implemented VDX, and should be contacted using previously established methods. Ontario public libraries can send requests to the libraries listed below using VDX. If location is found in an AMICUS search, fill in a blank VDX Request form. **Note:** These libraries charge for Interlibrary Loan. Check lending policy at <http://www.collectionscanada.ca/6/16/s16-202-e.html>

When the library symbol is longer than 5 digits you need to preface it with the naming authority, which is the National Library of Canada (NLC-BNC) when adding it to a VDX rota. i.e. **NLC-BNC: QMMMDM**

Change Expiry to “No Expiry” on the service screen.
